Petrol D-TOX

Product Features:

- A powerful Combustion Chamber and complete Fuel System Cleaner designed to remove harmful deposits in petrol engines.
- Removes deposits that gradually accumulate and clog-up fuel systems and injectors causing loss of power and poor fuel economy.
- Cleans combustion chamber deposits that can prevent valves from closing properly and in extreme cases prevent the engine from starting.
- Restores engine power.
- Optimises BHP.
- Improves acceleration and throttle response.
- Reduces the risk of non-starting.
- Increases the overall performance of your vehicle.
- Protects the fuel system from the formation of new deposits.
- Suitable for all petrol types (LRP and unleaded).
- Safe to use in all petrol vehicles including those fitted with catalytic converters, gasoline direct injection, superchargers or turbochargers.
- Also suitable for engines with carburettors.
- Works while you drive.
- Complete treatment in one 400ml pack.

Direction for use:

- Use once the engine is a year old then again every year or 10,000 miles/16,000km. Directions: Simply pour the entire pack into a full tank of fuel - D-TOX treats up to 60L. D-TOX your engine while you drive.

Handling:

- Avoid extremes of temperature.
- Product in cardboard cartons must be stored under cover and away from damp conditions.

Shelf Life:

- 5 years from date of manufacture.
- Manufacture date can be identified from a five figure code printed on the bottle. The first three figures indicate the consecutive day of the year, the last two figures the year.
